

**Position: Senior Environmental & Social Impact Assessment Consultant, Bangkok, Thailand**

SLP Environmental is an award winning ASEAN consulting company specialising in the provision of high quality environmental, social and health and safety consulting and advisory services throughout South East Asia. We are looking for a Senior Consultant to join our Bangkok, Thailand Office. The role will comprise Environmental & Social Impact Assessment (ESIA) and managing projects being undertaken throughout South East Asia including Myanmar (Burma), Lao PDR, Cambodia, Thailand & Indonesia.

**Requirements:**

- Have experience in undertaking a variety of Environmental & Social Impact Assessment Studies and associated projects
- Project implementing (assessment planning, budget planning, report writing...etc.)
- Project managing and undertaking field work and contractor management
- Conduct site walkovers for baseline and data collection studies and site reconnaissance purposes as required by specific projects and as directed
- Procure contractors, laboratories, sub consultants and suppliers as necessary. Manage sub-consultants and contractors appointed by SLP
- Direct members of staff with data collection, project research and data review as directed
- Interpret data: this can include detailed assessment of data, often using software-modelling packages and analyse information
- Draft fee proposals/sections of fee proposals for new projects taking into account the fee structure of the company
- Reviewing IEIA or EIA reports before submitting to senior management
- Managing legislative issues for clients and maintaining an awareness of how legislation impacts projects;
- Organising and managing public and stakeholder consultation exercises
- Defending SLP reports to regulators when necessary
- Presenting in meetings with local communities
- Manage socio-economic cultural surveys & manage terrestrial and aquatic ecological surveys
- Translate documents from Thai to English and English to Thai. Prepare other documents in Thai and English
- Perform other tasks assigned by senior management
- Assist in building and maintaining good relations with clients, contractors and sub consultants.
- Communicate with clients, regulators and sub-contractors as requested by your Director.
- Assist in the running of the office as instructed by senior management.
- These duties and responsibilities may be amended from time to time at the sole discretion of the Company.

**Employee Attributes**

The following attributes are essential:

- University degree in Environmental Science and/or Environmental Management & at least five years of relevant work experience
- Oral and written fluency in Thai and English. Knowledge of Khymer or Burmese language useful. TOEIC Score: >600 points. Computer literacy (especially in Microsoft Office)
- GIS experience is desirable, SPSS or other data analysis software experience is desirable
- Good communication skills and diplomacy. Attention to detail, and ability to work to high standards with tight deadlines
- Flexibility and ability to work independently or as a team. Willingness to travel frequently throughout South East Asian Countries and spend time in remote communities
- Have a full Thai Driving License.
