

## **JOB DESCRIPTION**

### **ENVIRONMENTAL SOCIAL GOVERNANCE (ESG) CONSULTANT**

Consultant with experience conducting and reporting environmental and social due diligence assessment (ESDD) studies benchmarked against national requirements and international E&S performance standards such as the IFC and ADB. The ideal candidate will have demonstrable experience in this field with a background in environmental or social sciences.

#### **Project Skills**

- Have Bachelor/Masters qualifications in Environmental, Social, Health and Safety specialisms.
- Have proven project experience in environmental and social due diligence assessment.
- Understand and have knowledge of IFC, ADB E&S performance standards and other international and national (ASEAN country) requirements.
- Complete ESDD auditing and reporting.
- Have excellent English language skills (reading, speaking and writing).

Undertake projects throughout the ASEAN region.

If you think you have the skills to complete this role do send through your CV (in English) to [info@slpenvironmental.com](mailto:info@slpenvironmental.com)
